RE: ACCOLADES TO LORI GUGGENMOS AND TERI GUYDISH

Dear Mr. Larsen:

I want to take a moment to express my sincere thanks to Lori and Teri for all the assistance they have given me over the last several months. As a biological consultant, I write a considerable amount of biological assessments. When I need information on fish and bald eagle habitat to complete these documents, Lori and Teri are most helpful. They are prompt, the information is accurate, and they are a pleasure to work with. Recently, I sent them the incorrect location of a project, and as always, I needed the information yesterday. I called them, gave them the correct location, and they sent me the information I needed within a few days.

I expect you normally hear only negative comments about your employees, so I wanted to take the time to tell you how professional and helpful Lori and Teri have been.

Sincerely,

SHANNON & WILSON, INC.
